

EGD4Cities Multiplier Events

During June and July 2022 most of the partners of the EGD4Cities consortium organized their multiplier events. National and local administrations, NGOs and other private sector entities participated in the final events organized in partner countries, where the outcomes of the project were presented and discussed, while important inputs and recommendations were provided for mainstreaming the European Green Deal agenda into practice at local level.

The EGD4Cities consortium is committed to continue working on developing new tools and methods that will communicate the European Green Deal agenda in wider audiences at local and national levels.

EGD4cities Final Transnational meeting in Palermo

The final transnational project meeting (TPM) of the Erasmus+ Project "EGD4cities – European Green Deal for Cities" took place in Palermo, Italy between 23 and 24 August 2022 and was hosted by PRISM. The project is in its finalization phase and all project results have been completed.

During the meeting the outcomes of the project were discussed as well as steps to take the project forward and follow-up on its results. Best practices and lessons learned were identified, while the capitalization of project outputs was discussed, focusing on how the Virtual Think Tank (IO4) will be further disseminated and capitalized.

Thank you to all partners of the program for their efforts and contribution and especially to PRISM for their warm welcoming and hosting. The meeting was overall informative and fun!!!
