Empowerneurship for the Newcomers in Europe

Project n° 2021-1-NO01-KA220-ADU-000033809

We are thrilled to share the latest progress of our project and the feedback on our pilot testing with local trainers of immigrants and newcomers in the EU, which was carried out from December 2023 to January 2024. The materials for the pilot included Project Results 2: a Welcome Package and Train-The-Trainer Manual 1 and 2, prepared by Desinova Studios (Systematically Designed).

Welcome Package: The feedback emphasises the necessity of tailoring the package to specific contexts and target groups, incorporating linguistic considerations, cultural nuances, and local support services. Comprehensive information on essential services, healthcare, legal assistance, housing, employment opportunities, and educational resources is crucial. Suggestions were made to include guidance on managing trauma and accessing mental health support.

Train-The-Trainer Manual 1: Feedback on clarity and self-explanatory nature was positive, with suggestions for minor enhancements. These include adapting content to specific contexts, providing audio guides for trauma-informed training, and simplifying language and instructions. Incorporating solution-focused questions and trauma recovery techniques can enhance exercises like the "YOU" exercise, providing a supportive and empowering experience.

Train-The-Trainer Manual 2: While the program and instructions were acknowledged as effective, suggestions were made to consolidate separate trainer manuals into one comprehensive guide for a cohesive and user-friendly experience. Emphasising a step-by-step approach and allowing reflection could enhance the program's effectiveness, particularly for immigrants considering entrepreneurship as a pathway to integration.

Conclusions: The unified feedback offers valuable insights into the development and implementation of the Welcome Package and Train-the-Trainer Manuals. By aligning with the specific needs of immigrants and trainers, these resources have the potential to enhance the integration process and promote empowerment.

We are considering all the feedback and suggestions as we take decisive steps towards improving the Welcome Package and the Train-The-Trainer Manuals.

Stay tuned for further information about the progress of our project!
