Technical and Content Testing of the Platform

Our Slovenian partner; University rehabilitation institute, Republic of Slovenia has completed the technical and content survey. We invite you to explore our online [Learning platform](#), and then provide your feedback by filling out the [Content and Technical survey](#).

The image is a screenshot of a web-based survey titled 'Talking Hands, content questionnaire'. At the top, there is a header bar with the 'talkinghands' logo on the left and a progress indicator on the right showing '0%' and '100%' with a slider. Below the header, the title 'Talking Hands, content questionnaire' is centered. The main body of the survey contains a message to partners, asking for feedback on the 'Open Online Platform for Learning the Sign Language'. It mentions that the questionnaire is in front of them and that they should spend about 5 minutes to complete it. It also states that their answers will remain confidential. At the bottom of the survey, there is a section for grant information, including the Grant Agreement number (2022-1-IT02-KA220-ADU-00088507), the Project Acronym (Talking Hands), the Project title (Open Online Platform for Learning the Sign Language), and the Responsible partner (URI-Soča (University rehabilitation institute, Republic of Slovenia)). Below this, there is a logo for the European Union and text indicating that the project is 'Co-funded by the European Union'. A small disclaimer at the bottom states: 'Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive'.
