Final Testing Phase for Talking Hands Platform: Free Access Coming Soon

All project partners within the EU+ project Talking Hands are currently conducting the necessary testing with their target groups – both sign language stakeholders and IT experts. After the testing phase, the platform will be finalized and made freely available to everyone interested.

Showcase event for Talking hands online platform Järva veckan 2024, Stockholm, Sweden

Last week, our Swedish partner Sensus showcased and tested the Talking Hands platform at Järva veckan 2024, Sweden's premier event for socially engaged organizations and citizens. Participants who visited Sensus tent provided valuable feedback and insights about the Deaf community's needs in Sweden.

This event also facilitated important conversations and the establishment of new collaborations.
