

ARTIFICIAL INTELLIGENCE IN ADULT EDUCATION AND SELF-LEARNING:

Providing personalized and adaptive learning experiences with emphasis on language learning

AI IN ADU WEBSITE AND SOCIAL MEDIA

Our project website is now online! It offers interesting insights into our project activities as well as regular news about digital storytelling and shadow theater. Interested parties will also have access to the upcoming materials we are developing as part of the project.

Website: AI in education : <https://aiineducation.eu/>

We are also represented with the project on Instagram and Facebook. Follow and discuss with us recent developments.

PROJECT PROGRESS UPDATE

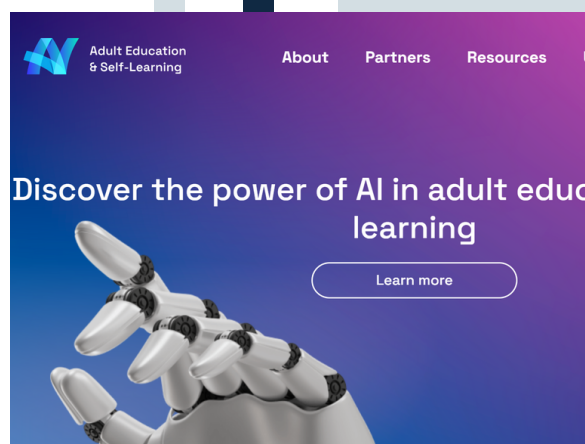

Over the past few months, we have been working intensively on the topic of 'artificial intelligence in adult education' with a particular focus on language learning to understand the usage behaviour, knowledge and needs of teachers and self-learners.

KEY FEATURES

- 01.** In addition to an extensive literature review, we focused on developing a quantitative research design in the form of an online survey. Conducting online surveys enables us to precisely capture the needs and requirements of our target group. By asking specific questions, we determine the extent to which teachers and self-learners already use AI, their attitude towards AI and their needs and expectations of AI-supported solutions.
- 02.** We also conducted focus group interviews with the target group and recorded podcasts with experts.
The results will soon be published on the project website.
- 03.** At the same time, we are working on the development of our project website, which will serve as a central platform for information, resources and dialogue with interested parties.

NEWSLETTER 1

JANUARY 2025

TRANSNATIONAL PARTNER MEETING

In January 2025, all project partners will meet for their second transnational meeting in Cyprus. We will take the opportunity to present our progress to date, discuss ideas together and define the next steps for the successful implementation of 'AI in Adult Education and Self Learning'.
