

GAMI.FI.RE

FOSTERING FINANCIAL LITERACY & CAREER READINESS THROUGH
GAMIFICATION IN VOCATIONAL EDUCATION

GAMI.FI.RE IN ACTION

What if financial education in VET didn't have to be boring? That's exactly what we explored this past month, with a serious game that lets students practice real-life financial decisions, and a practical toolkit to help teachers bring these lessons straight into the classroom.

COLLABORATION IN BREDA

At Curio in Breda, we kicked off our international week with partners from Slovenia, Italy, and Cyprus. Teachers from each country explored the latest version of the game, gave feedback, and worked on practical lesson plans during workshops and demo sessions.

BRING IT TO YOUR CLASSROOM

How can you use GAMI.FI.RE in your classroom?

- Kick off a career lesson with the game as your starting point.
- Connect a badge to a cross-subject project to highlight learning outcomes.
- Help students build confidence by practicing real-life decisions around money, work, and their future.

WANT TO TRY GAMI.FI.RE?

We're running local workshops and demo sessions across the Netherlands until mid-May. Want to try GAMI.FI.RE in your school? Get in touch, we'd love to explore what's possible together.
