AI IN ADU NEWSLETTER

AUGUST 2025

EXPLORE THE LATEST AI TRENDS & INSIGHTS OF OUR PROJECT!

Dear Subscribers,

We are excited to share the latest developments from the "AI in Adult Education and Self-Learning" project.

Building upon the foundations laid out in our first newsletter, we have made significant strides in our mission to integrate AI into adult education, with a focus on language learning.

1. Key Feature Results Now Available Online

We are pleased to announce that the outcomes from our Key Features section, as previewed in our first newsletter, are now accessible on our homepage.

These resources provide valuable insights into the current landscape of AI in adult education, including:

- Usage Behavior: How teachers and self-learners are currently engaging with AI tools.
- Needs and Expectations: Direct feedback from our target group on what they hope to achieve with AI-supported solutions.

Visit our [website](https://aiineducation.eu/) to explore these findings in depth and discover how they inform our project's trajectory.

2. Expert Insights: Podcasts Now Live on YouTube

Our team has been fortunate to engage with leading experts in the fields of AI and education.

These insightful discussions are now available on our [YouTube channel](#), offering:

- Deep Dives into AI Applications: Practical examples of AI enhancing educational outcomes.
- Future Perspectives: Thoughts on the evolving role of AI in adult learning environments.

3. Transnational Partner Meeting- A Productive Gathering

As announced in our first newsletter, our team convened for the second transnational partner meeting in Cyprus. This collaborative event was a resounding success, marked by:

- Creative Icebreakers: The team crafted AI-generated team photos to ease into the meeting, fostering a lighthearted and innovative atmosphere.
- Guides for Educators and Self-Learners: We have begun developing comprehensive guides to facilitate a smooth introduction to AI in education, complete with actionable tips for immediate implementation.
- Interactive Learning Slides with Genially: To encourage deeper engagement with AI and learning themes, our interactive slides are designed to be both informative and accessible, promoting a broader discussion on the subject.

All materials will be piloted in November and December 2025 before being published.

If you are interested in being included in the piloting of our materials, please reach out to us at ai-erasmusplus@zww.uni-mainz.de

Your feedback and participation are invaluable in shaping the future of AI in adult education.
