WP4 in Action:
Matching NEETs
with Employers

From Workshops
to Implementation
Planning

Dear readers,

In the fourth newsletter, we will be sharing updates on our latest activities, including the employer workshops and the launch of the Digital Toolkit. These resources are designed to support the integration of young refugee and migrant NEETs into the labor market.

We hope that you will find our newsletter informative, engaging, and inspiring!

Thank you for being part of this exciting Erasmus+ journey!

◆ PROJECT PARTNERS GATHER IN PALERMO FOR TPM

On 20–21 May 2025, the Newcomers@Work consortium met in Palermo, Italy, for the fourth Transnational Project Meeting, hosted by PRISM. This in-person meeting was a key opportunity to review project progress, align on the upcoming deliverables, and prepare for the final implementation phase.

STRATEGIC COORDINATION

Partners shared local updates, discussed findings from recent national activities, and worked together on finalising the Implementation Guide and planning for long-term sustainability. The meeting also offered space for reflection and exchange on the human side of the work — how the project's tools are impacting young people and those who support them.

The hosts at PRISM provided a welcoming environment and insights into the local Sicilian context, which added a valuable dimension to the partnership's shared learning.

◆ WP4 IN ACTION: MATCHING NEETS WITH EMPLOYERS

Implementation activities under WP4 are now in full swing across all partner countries. After the successful delivery of local workshops, project teams are now focusing on matching young NEETs with local employers, a key step in applying the methodology in real-world contexts.

In many locations, on-the-job training and mentoring activities are already underway. Youth workers are guiding young people through tailored action plans, while employers are beginning to test and adapt the mentoring tools developed during earlier stages of the project.

FROM WORKSHOPS TO IMPLEMENTATION PLANNING

This hands-on phase is generating rich insight into what works, what needs adjustment, and how local labour market realities intersect with migrant youth experiences. All this input will feed directly into the finalisation of the Implementation Guide and help build a robust, scalable model for future use.

LET'S GET TO KNOW OUR TEAM!

The NEWCOMERS@WORK consortium is composed of seven European organisations from Poland, Luxembourg, Greece, Italy, Portugal, and Romania.
