...			
Total number of participants:	71	From total number of countries:	1 - Italy
Description			
Provide a short description of the event and its activities.			
The WP6 activities were implemented by PRISM Impresa Sociale in Italy during March 2025 .			

The “Democracy Co-creative Labs” were conducted at a **high school in the town of Marineo**, located in the province of Palermo, over two consecutive days: March 24th and 25th, 2025.

A total of **71 students** took part in the labs across both days, supported by 6 teachers, 2 staff members from PRISM, and 1 decision-maker representing the municipality of Marineo.

The **first day** was dedicated to introducing students to the process of developing awareness campaigns. Through a presentation and a guided session, participants were divided into five working groups to explore the concept of active citizenship and how civic engagement can be used to address the issues they had previously identified during earlier WPs’ activities.

On the **second day**, the students engaged in a constructive dialogue with local authorities—specifically, the Deputy Mayor of Marineo. Working in their five groups, they finalized their awareness campaigns and concluded the session with a presentation of their work.

Here below the links of **WP6 dissemination activities**:
